**Come explore with 4-H and connect with the scientists and researchers at OSU who do amazing science stuff every day!**

**Feb. 3, 9:30 a.m. – May the Force Be With You: Sound Science**

Join Dr. Betty Lise Anderson and her students from The Ohio State University's Department of Electrical and Computer Engineering, as we discover the sound waves and electromagnetic fields. This knowledge and some wiring work, along with your "magnetic" personality will be used to create a force field to build a speaker out of paper to amplify your phone, iPod, or Mp3 player. Be sure to bring some type of phone, iPod or Mp3 player and a friend to rock out to the cool tunes you will hear!

4-H Science Saturdays are for kids in third grade and up who want to discover new things and learn by doing. Programs are held at Nationwide & Ohio Farm Bureau 4-H Center. The cost is \$5 per child. Preregistration is required; complete the information form on reverse. Please register by Wednesday, January 31, limited to 25 participants.

**THE OHIO STATE UNIVERSITY**

COLLEGE OF FOOD, AGRICULTURAL,  
AND ENVIRONMENTAL SCIENCES

The Nationwide & Ohio Farm Bureau 4-H Center is located at 2201 Fred Taylor Drive on the OSU campus across from the Schottenstein Center
