

Science Saturdays

at The Ohio State University

Come explore science in a new way as 4-H connects you with the scientists and researchers at OSU who do cool science stuff everyday!

February 9—What’s up with the weather?

Whether it’s a snow day or a day at the beach, the weather has a big impact on what you do outside. The **OSU Meteorology Club** will be here for this month’s SciSat with some great activities to help you discover what’s up with weather! You’ll learn how to read a weather map, explore different types of clouds, find out about the density of air and even do some weather observations. We’ll be here—rain or shine!

4-H Science Saturdays are for kids in grades 3-6 who want to discover new things and learn by doing. This session runs from 9:30-11:30 a.m. at the Nationwide & Ohio Farm Bureau 4-H Center, just across from the Schottenstein Center at OSU. The cost is \$5 per child. Preregistration is required and group size is limited. Complete the form on reverse and send it in today to be part of some hands-on science fun!

Registrations due by February 6.

4-H Science Saturdays

at The Ohio State University

Mail your completed registration form and return with fees to
 Sally McClaskey, Ohio 4-H Center, 2201 Fred Taylor Dr., Columbus OH 43210-1156

Make check payable to *The Ohio State University* • Preregistration required; space is limited!
