Identification—Key

In this activity you will:

- Work with a partner to answer these questions. See which team or group learns the most about Ohio!
Citizenship
Labels and Stereotypes

It’s the week before the holidays and you are given the task of buying a present for each of the following people:

1. Harry Skinner, a cab driver
2. Marsha Truelove, a Red Cross volunteer
3. Freddy Faster, a sixth grade “A” student
4. Abigail Watson, a senior citizen

Which of the following gifts would you choose for each? Write the letter of the gift you would choose beside each person’s name.

A. a desk dictionary
B. a rocking chair
C. two tickets to the opera
D. a pair of skis
E. a leather jacket
F. a make-up kit
G. a Michael Bolton album
H. a first-aid kit

Discuss the following questions with a partner:
1. Why did you choose these gifts?
2. Would you choose different gifts if you knew the following information? Why?

Harry is a voice student who drives a cab in his spare time. He has nothing against leather jackets, but he’d prefer opera tickets. He hopes to be an opera singer.

Marsha thinks Michael Bolton is “super” and listens to his records while doing volunteer work at the Red Cross canteen.

Freddy is working on a clown routine for the school talent show right now. A make-up kit would help his act a lot more than a dictionary would!

Abigail, born in Vermont, enjoys skiing on winter days. She would put new skis to good use and has no need for a rocking chair.

3. What, if any difference does it make if you stereotype people? Do you think stereotypes are a form of prejudice?

Decision-Making

In this activity you will:
• learn to identify the pros and cons of labeling and stereotyping.
• choose gifts for imaginary people and discuss the reasons for your choices.
International
Major Food Exporters

Circle the names of the countries that export more food out of their country than they import into their country.

After completing the word search, discuss these questions with a partner.

1. Were any of the six countries easy or hard to identify?
2. What are two or three reasons why people go hungry in some countries?
3. What do you think needs to be done to make sure all the children in the world get enough to eat?

**Word Search**

In this activity you will:
- find the names of the six food exporting countries.
- identify factors which contribute to world hunger.
- consider possible ways to reduce world hunger.
- discuss alternatives to world hunger with a partner.

## International Cross-Cultural Understanding: International Bingo

Move among the members of your group and have them write their names in the box for any of the 16 items that describe them. Then discuss how many people in your group match each of the descriptions. Discuss possible ways members of the group could participate in international experiences. If everyone is able to fill in all the boxes on their bingo card, play a game of international bingo by pulling members’ names out of a box and seeing who gets four in a row first.

Personal Values: Job Openings

There are five applicants for one job opening. Rank the candidates from 1st through 5th in the order you would hire them if you were the employer.

_____ A woman whose husband recently died. She has four young children, ages one to six, whom she now must support. She will be getting $200 a month from insurance, but this is not enough to live on.

_____ A former drug addict who has kept away from drugs for eleven months. He is a very serious young man who is determined to do well. He has had trouble finding jobs because of his former addiction, and his psychologist and priest say there is a strong possibility he will return to drugs if he is not employed soon.

_____ A highly intelligent black man who lives in a slum. He needs the job to continue his college education and to help support his brothers and sisters. He wants to become a doctor and help the poor in his neighborhood.

_____ A young woman who left her parent’s home to try to make it on her own. She has a strong interest in this type of work, and is the best qualified of all the applicants.

_____ A recent immigrant to this country who is the father of four. His knowledge of English is poor, and this will probably slow him down on the job at first. But he is a clever and confident person who learns quickly.

Discuss these questions with a partner.

1. Why did you rank the candidates in the order you did?

2. What personal or group values do your choices indicate?

3. As you make job decisions is it important to consider the requirements of the job task or the needs of the people involved?

**Materials Needed**  
A candy bar with a list of ingredients on the wrapper for each participant.

With a partner, examine the wrapper of a candy bar and brainstorm the types of jobs and careers associated with producing candy bars for consumers. Then list the types of job skills and training required for each job/career you identify.

**Brainstorming**

In this activity you will:
- learn the wide variety of jobs and careers associated with producing products.
- determine which types of jobs and careers may interest you.
- identify and discuss jobs and careers associated with producing candy bars.

Discuss these questions with a partner.

1. In which of these jobs would you be most interested, if you had to pick one? Why?
2. Which of these jobs are least interesting to you?
3. What types of work are you interested in doing as an adult? Why?
4. What training will you need?

**Study Yourself Wheel**

The Study Yourself Wheel has 12 different areas. Write short statements that describe how you feel about each area. There are no correct answers, only what is right for you. Then discuss your answers with a partner, and talk about what types of jobs or careers you think would be best for you.

1. Subjects and things I like and why.
2. Subjects and things I dislike and why.
3. My skills and abilities.
4. My hobbies.
5. My ability to pay for further education.
7. My relationships with others.
8. My employment experiences.
9. Volunteer services I have performed.
10. My extra-curricular activities.
11. Am I people-oriented, action-oriented, or data-oriented?
12. Things I do when I want to do nothing.

**Writing**

In this activity you will:

- learn your personal preferences and abilities which should be considered in making career decisions.
- identify your preferences, abilities, and experiences in 12 areas.
- discuss your answers and how they relate to your job and career decisions with a partner.

What’s So Important?

Step 1: Make a list of things you use around the house that use electricity. This includes anything that plugs into an electric outlet that you use fairly often:

Step 2: Draw a line through the three things you could live without the easiest. For example, if the power went out, which things could you live without most easily?

Step 3: Draw circles around three things that would be the last things you would want to give up.

Step 4: Discuss these questions with a partner:

1. Why were the circled items most important?
2. What made the decisions or choices hard to make?
3. What other situations can you think of that might have decisions that are hard to make?
4. What does this tell you about yourself?
5. What are the similarities and differences in how you decide personal priorities and priorities of groups in which you are a member or a leader?

How I Make Decisions
Consider the ways you make seven types of decisions.
Place an “X” in the space that shows the way you make decisions, then compare your answers with a partner.

### Decision-Making
In this activity you will:
- learn how you make decisions.
- learn what kinds of decisions require careful, thoughtful deliberations, and what kinds of decisions are easier for you to make.
- determine similarities and differences between the way you and your friends make personal decisions and as members and leaders within a group.

Discuss these questions with a partner:
1. How do you usually make decisions?
2. What kinds of decisions do you carefully think about, and what kinds of decisions are easier to make?
3. Which kinds of decisions are most important to you? Which kinds of decisions are least important to you?
4. What are the similarities and differences between your answers and your partner’s answers? Why do you differ, and why are you similar?
5. What are the differences and similarities in how you make personal decisions, and how you make decisions as a member or leader in a group?

Leadership

Are You an “N” or an “S”?  

Check which item in each of the following seven pairs you prefer:

N1 _____being called imaginative or intuitive, or
S1 _____being called factual and accurate?

N2 _____using methods you know well that get the job done, or
S2 _____trying to think of new methods of doing tasks?

N3 _____thinking about possibilities, or
S3 _____dealing with actualities and real life?

N4 _____concrete and real things, or
S4 _____ideas and theories?

N5 _____possible views of the whole, or
S5 _____the factual details available?

N6 _____facts, or
S6 _____ideas?

N7 _____designing plans without necessarily carrying them out, or
S7 _____carrying out carefully laid, detailed plans with precision?

Next, score your responses. Did you check more “N’s” or “S’s”?

If you checked more “N’s” than “S’s,” you rely on intuition. “N” (intuitive) leaders prefer looking for possibilities and relationships rather than working with facts. You like solving new problems, dislike doing the same things over and over, enjoy learning new skills, work in bursts of energy, reach conclusions quickly, and are impatient with routine details.

If you checked more “S’s” than “N’s,” you rely on your senses. “S” (sensory) leaders prefer working with facts rather than looking for possibilities and relationships. You dislike new problems unless there are standard ways to solve them. You like an established way of doing things, using old skills, seldom make errors, and are good at precise work.

Discuss with these questions with a partner.

How well does the description describe you? Are you similar or different?

Are there situations in which “N’s” would be better leaders? How about “S’s”?

Decision-Making

In this activity you will:

• learn whether you rely more on your intuition or your senses in making decisions.
• see strengths and weaknesses associated with your preferred leadership style.
Leadership Cone of Experience

Arrange the ten types of experience in order from least effective on the top to most effective on the bottom of this puzzle. Write the letter of each type of experience on the cone to show which experience should go in each of the ten blanks.

In this activity you will:

• learn to select as a leader experience which maximize the development of people in groups you lead.
• arrange ten types of experiences in order of their effectiveness in helping people learn, and discuss your responses with a partner.

least effective

a. taking part in role playing
b. reading words
c. listening to recordings or looking at still slides or pictures
d. practicing with specimens, objects, or models
e. watching television or videos

f. taking part in field trips
g. actual hands-on “learn-by-doing” activities
h. viewing habits
i. observing demonstrations
j. looking at symbols

most effective

Compare your rankings with the correct ranking, and discuss these questions with a partner.

1. Why do you think the most effective method is better than the least effective method?
2. In what situations might a leader want to use a less effective method, rather than one of the most effective methods?
3. What factors do leaders need to consider in deciding which methods to use?

Communications
Ways of Communication

1. Think of the many ways people communicate. In the box below, write (or draw a picture of) those methods. Consider how you communicate with other people and then think about how people with different backgrounds might communicate with and without words. For example, people might talk face-to-face or by drawing pictures, etc.

2. Compare your responses with a partner. Discuss reasons why people might choose to communicate in one way rather than another. For example, why might someone communicate with a smile when they like what you are doing rather than telling you with words?

Non-Verbal Communication

Before this activity, prepare at least eight slips of paper, each describing a way a participant might feel about the group or its activities. It can be a personal feeling or mood.

1. In this activity, talk to the group about the importance of non-verbal messages. Point out that sometimes what you don’t say vocally can send just as strong of a message as what is spoken out loud.

2. Give each person (or team) a slip of paper listing a specific feeling or mood.

Suggested Feelings/Moods

<table>
<thead>
<tr>
<th>anxious</th>
<th>unhappy</th>

<td>bored</td>
</tr>
<tr>
<td>stuck up</td>
<td>energetic</td>
<td>hungry</td>
</tr>
</tbody>
</table>

3. Give each person (or team) time to privately practice and discuss how to act out the feeling listed on the paper.

4. Without revealing what the feeling is, have each person (or team) use facial expressions and/or body language to try and show the group how he or she is feeling.

5. Have the group members guess what feeling is being portrayed. Talk about other ways people might express the emotion.

Body Language

In this activity you will:
• learn how body postures (body language) communicate feeling and meaning.

1. Tell the group that this activity is a way of exploring how body postures can communicate feeling and meaning.

2. Ask group members to find partners. One partner will be a “statue builder” and the other will be the “statue material.” Ask the partners to decide who will play which role first.

3. Explain that when you call out a feeling or situation, the job of the “statue builder” is to move his or her partner (the “statue material”) into a posture that expresses the feeling. Show them appropriate ways they can move their partner’s arms, legs, and heads to express the word you give them.

4. Demonstrate the activity by using a volunteer to serve as “material” for you to “build” a statue expressing one of the words listed below. Then call out one of the other situations or feelings and give the pairs time to create their statues.

|                     | giddy         |

5. When each builder has created a statue, invite group members to look around at what others have built. Statues can move their eyes, but not their bodies.

6. Have the partners switch roles. Call out different feelings to have the new builders create statues.

7. Have each pair secretly pick a feeling, create a “statue” to show the feeling, and then have a group try to guess what the statue expresses.

8. Discuss what members could learn from this activity.

Communications
Cross-Cultural Communication

1. Have everyone in the group form teams of two.

2. Pretend each team member is from a different country and speaks a language that the others cannot understand.

3. Using non-verbal signs only, have one member of the team ask one of the questions below and have the other member of the team answer the question non-verbally.

4. Afterwards, have the entire group discuss why communicating with someone who speaks a different language can be difficult. Also, discuss what seems to work when trying to communicate if you are unable to speak someone else’s language.

Questions

1. How old are you?
2. Are you hungry?
3. What is your name?
4. Where are you from?
5. Are you thirsty?
6. Are we friends?
7. Are you tired or sleepy?

Public Speaking Roll Call

Think of five different roll call responses your club could use at meetings and write them in the box below. These might be about subjects that each club member could respond to to show that he or she is present. Think of a subject everyone shares and that most people would find interesting. A good idea is “my favorite hobby.” Discuss your ideas with the group and decide which roll call ideas would be appropriate. Use the roll call subjects at the rest of your meetings.

Note: Be sensitive to the fact there might be topics that not all members of your group can respond to. Also, respect the fact that there might be some topics that club members would not want to answer.

Performing Skits

In this activity you will:
• learn how a skit can communicate a message.

1. Form teams of three to five people. Have each team pick one of the situations listed below and develop a skit to illustrate the situation. Each team member should have some acting role in the skit. Then have each team perform the skit in front of the whole group.

2. After the skits are finished, discuss what participants think makes a “good” skit compared with an “average” one. If participants were helping younger 4-H’ers plan a skit, what advice would they give them?

Situations

1. Your group is sitting and waiting for the bus. Act out what kind of things you would do and what kind of things you would talk about while you wait.

2. Your group is doing warm-up exercises to get ready to go outside for gym class. Act out what kind of things you would do and what kind of things you would talk about while you warm up.

3. Your group is traveling to Grandma’s house in a car. Act out what kind of things you would do and what kind of things you would talk about while you are riding to Grandma’s.

4. Your group is part of a family getting ready to have their picture taken at a studio. Act out what kind of things you would do and what you would talk about while waiting to have your picture taken.

5. Your group is watching a television show. Act out what kind of things you would do and what you would talk about while you watch television.

6. Your group is eating breakfast. Act out what kind of things you would do and what you would talk about while you eat breakfast.

7. Your group is on a canoe trip. Act out what kind of things you would do and what you would talk about while you canoe.

Illustrated Talk

Before this activity, prepare ten to fifteen blank note cards. Write a simple task on each card. Some examples of tasks are: tying a shoe, sharpening a pencil, opening a carton of milk, unwrapping and chewing a stick of gum, zipping a jacket, or opening a can with a can opener.

1. Explain that this activity will provide experience in giving directions as part of an illustrated talk or demonstration.

2. Give each person (or team) one of the cards which contains a simple task.

3. Give each person (or team) time to privately practice giving verbal instructions on how to perform the task.

4. Without revealing what the task is, have each person (or team) give verbal directions to the group in his or her own words as if he or she were actually doing the task.

5. Have the group members guess what the task is. Then discuss what tips or pointers participants think are important when giving directions.

Note: If you or anyone in your group is interested in participating in a Demonstration Contest, ask your county OSU Extension office for more information.

Suggested Tasks

- Tying a shoe
- Opening a carton of milk
- Making a peanut butter sandwich
- Opening a can with a can opener
- Answering the telephone
- Brushing your teeth

Photography Basics

Answer each question. If you are unsure about the correct response, ask others in your group for help.

1. Why is light essential to photography? Light is what is recorded on film.

2. How should you clean the lens on your camera? Blow away dust or grit on surface, breathe on lens surface, and gently wipe lens clean with lint-free cloth or lens-cleaning paper.

3. Why does the lens need to be cleaned? The lens acts as a window for the film; the film will see a blurry scene with a dirty lens.

4. What are two tips you should follow when using an eye-level viewfinder? Keep your eye close to the viewfinder; the bottom of the viewfinder should be level with the horizon.

5. Explain the conditions that would be present when you use a fast-speed film, a medium-speed film, and a slow-speed film. Fast-speed film—poor lighting conditions; Medium-speed film—used for most picture taking conditions on sunny or bright cloudy days; Slow-speed film—bright light conditions

6. Explain the use of front-lighting, side-lighting, and back-lighting. Front-lighting—the sun is at your back and shines on the side of your subject that is facing you; Side-lighting—the sun shines on the subject from one side; Back-lighting—the sun shines from behind your subject.

7. What are two tips for taking indoor flash pictures? Don’t take any pictures if you’re directly facing a mirror, window, or shiny surface. Use flash extension so people’s or animal’s eyes won’t have red glow.

8. What occurs if your pictures are underexposed? Too little light reaches the film so the pictures are dark.

9. How should you clean the inside of your camera? Blow out any dirt with a rubber syringe or brush it out with a soft brush.

10. List three ways to add interest to a picture of your dog. Give the dog an object to play with, take an “action shot,” and/or include a person in the picture.

Writing About Myself

Write a story that you can share with others. This story should be about you and should not be more than one page long. Include your name and hometown, and then go on to tell whether you are a happy person, a quiet person, or the kind of person you see yourself as. Write about what makes you that way. You may want to mention any hobbies or things you like to do. Discuss with a friend how accurate your personal story is from his or her viewpoint.

Conducting Interviews

1. Choose someone to interview.

2. Pretend you are a reporter and are doing a personal interest story. Be sure to ask the person you interview some basic questions such as who they are, where they are from, what they do with their time, when he or she does those things, and why he or she likes to do the things they do.

3. Write their answers during the interview.

4. Give a short verbal report to the group about what you learned.

5. At a later time, try writing a short news story about the person using the information you wrote down while interviewing him or her.
