

2023 Dairy 4-H Recognition

ATTENTION: Dairy Club Members and Advisors

Once again, the **Ohio 4-H Dairy Program** will be recognizing members for their achievements throughout 2023. Participants will be recognized as Gold, Silver, or Bronze winners and will be listed on the Ohio4h.org website and facebook page. We would like your help in verifying all dairy activities in which members of your county participated from January 2023 to December 31st, 2023. Deadline for this form is February 20th. It can be faxed, scanned, emailed, or mailed by that date.

Members may only receive points for one activity in each column listed. All state activities are listed on the form and can be found at www.ohio4h.org - search the dairy calendar. Any county educational event in which members were taught about the dairy industry or dairy cattle can be considered a county clinic/activity. These 2023 do not have to take place in the member's home county, but please be specific about the event content. Quality Assurance training is required, so it does not count for points. Breed Association contests include quiz bowl, speaking, poster, etc...are examples of activities that would count.

Any 4-H member who lists 8 or more activities on the form will be rewarded with an additional 10 points. If you have questions regarding the completion of this form, they should be directed to Sherry Smith (330.465.2376 or smith.10072@osu.edu). We will recognize all that achieve Gold rating status at the Spring Dairy Expo and have a special award for the 4-H Dairy member with the highest point score.

Advisors/volunteer leaders must verify the information of individual members and sign your name to the form. Thank you for your support in documenting the progress of our 4-Hers.
