

My Animal's Pen

Complete this two-page profile of your animal's pen. If you have more than one animal, begin by copying these pages as many times as needed. Copies are also available at go.osu.edu/4hdairyresources.

1. What is the width of the pen or housing facility? _____

2. What is the length of the pen or housing facility? _____

3. What are the dimensions of the feeder? _____

4. What are the dimensions of the waterer? _____

5. How many other animals are in the pen or housing facility with your project animal(s)?
What are they? _____

6. Is the pen or housing facility at an ideal stocking density? In other words, is the space large enough to allow all animals to lie down and turn around freely without touching any objects or other animals? Explain.

7. Is there enough feed bunk space for all animals to feed without any competition? Explain.

8. Do you have multiple sites within the pen or housing facility for animals to get to water or is your waterer big enough to eliminate competition within all animals in the pen or housing facility? Explain.

Attach photo(s) with your project animal(s) in the pen or housing facility. Your picture(s) should show these items and areas:

- location of feeder and waterer
- laying or bedding area
- sheltered areas
- open spaces or exercise areas
- animal traffic patterns

Attach photo(s) of pen or housing facility here.
