AKC Trick Dog

EVALUATOR GUIDE
November 1, 2017

About AKC Trick Dog

Welcome to the AKC Trick Dog program. In AKC Trick Dog, dogs and their owners can have fun learning tricks together.

There are 4 levels of titles in AKC Trick Dog:
- AKC Novice Trick Dog (TKN)
- AKC Intermediate Trick Dog (TKI)
- AKC Advanced Trick Dog (TKA)
- AKC Trick Dog Performer (TKP)

AKC Approved CGC Evaluators may observe the tricks and sign as evaluators for the Novice, Intermediate, Advanced, and Performer Trick Dog titles.

(When the AKC Trick Dog Program launched on May 1, 2017, applicants for the Performer title sent a video to AKC for review. As of November 3, 2017, CGC Evaluators may evaluate the AKC Trick Dog Performer tests).

In a trick dog class (e.g., a 6-weeks course), evaluators may sign off on tricks as handlers learn them each week for Novice, Intermediate, Advanced and Performer.

For the Performer level, tricks may be done as either 1) 10 unrelated tricks done one after the other or 2) as a part of a routine with a theme/story (such as “Bruno plays sports”).

Do More With Your Dog!™ Trick Dog Titles
AKC is proud to recognize Kyra Sundance’s Do More With Your Dog (DMWYD) titles. DMWYD title holder may submit a copy of a DMWYD certificate as proof of the equivalent AKC title, along with the AKC Trick Dog title application and fee to earn AKC Trick Dog titles.

NOVICE LEVEL

Guidelines

For the Novice Trick Dog title, the dog must:
1) perform 10 tricks, or
2) have the CGC on record at AKC and perform 5 tricks.

In the Novice Trick Dog test, handlers:
• **May** use food/toys as a lure (unless otherwise indicated for a specific trick).
  (Lures are used to guide the dog into position).

• **May** use lures, hand signals and/or verbal cues unless otherwise indicated for a specific trick.

• **May** use food as a reinforcer and **may also use** clickers to mark behaviors.
  (Reinforcers come after the behavior to tell the dog the behavior was done correctly).

In the Novice level, the dog will do each trick 2 times (unless otherwise specified) for the evaluator.

CGC Dogs and Trick Dog Titles
If a CGC certificate or title is on record at AKC,
CGC + 5 Tricks = the AKC NOVICE TRICK DOG TITLE

For the Novice Trick Dog title, if the dog has a Canine Good Citizen (CGC) certificate or title on record at AKC, the CGC will count as 5 tricks.

CGC dogs can earn the Novice Trick Dog title by performing 5 additional tricks for the CGC Evaluator.
INTERMEDIATE LEVEL

Guidelines

For the Intermediate Trick Dog title, the dog must:
1) perform 10 tricks from the Intermediate tricks list.

In the Intermediate Trick Dog test, handlers:

- **May NOT** use food/toys as a lure (except in tricks where this is specifically permitted - crawl on belly and weaves).
  (Lures are used to guide the dog into position).

- **May** use food as a reinforcer and **may also use** clickers to mark behaviors.
  (Reinforcers come after the behavior to tell the dog the behavior was done correctly).

___________________

In the Intermediate level, the dog will do each trick 2 times for the evaluator unless otherwise specified.

___________________
ADVANCED LEVEL

Guidelines

For the Advanced Trick Dog title, the dog must:
1) perform 5 tricks from the Advanced tricks list.

In the Advanced Trick Dog test, handlers:
- **May NOT** use food/toys as a lure.
  (Lures are used to guide the dog into position).
- **May** use food as a reinforcer and **may also use** clickers to mark behaviors.
  (Reinforcers come after the behavior to tell the dog the behavior was done correctly).

________________

In the Advanced level, the dog will do each trick 1 time for the evaluator.

________________
PERFORMER LEVEL

Guidelines

In the Performer level, there are no tricks specified.

For the Performer Trick Dog title, the dog will:

1) perform a total of 10 previously learned or new tricks from the Novice, Intermediate and Advanced titles.
2) The dog must do at least 2 Intermediate and 2 Advanced Tricks.

For the Performer level, tricks may be done as either 1) 10 unrelated tricks done one after the other or 2) as a part of a routine with a theme/story.

An example of a theme is “Bruno plays sports”. An example of a tricks routine with a story is, “This is Princess. Princess loves to go to school. When she goes to school she 1) takes a nap, 2) gets a book, 3) goes outside and plays ball,” etc.

A helper may be used to read/narrate the story as a way of prompting the tricks for the handler, or the handler may tell the story as the routine proceeds.

A theme or story is not required, however, these can be very entertaining and useful for dogs who are working in schools and therapy settings.

In the Performer Trick Dog test, handlers:

1) May not use food/toys as a lure.
   (Lures are used to guide the dog into position).

2) May use food as a reinforcer and may also use clickers to mark behaviors.
   (Reinforcers come after the behavior to tell the dog the behavior was done correctly).
NOVICE LEVEL

Trick Descriptions

1. Balance Beam
   The dog will walk on a low balance beam or board a few inches off the floor. The dog will perform this trick at least 2 times in a row.
   • The board should be approximately 6-ft. long
   • The board should be stable.
   • Handler may be beside the dog for safety.

2. Bark on Cue
   When the handler says, “Bark!” or “Speak!” (or another chosen verbal cue), the dog will bark. The dog will perform this trick at least 2 times in a row.
   • The handler may also choose to use a hand signal for “speak.” The hand signal may be given alone or along with a verbal cue.

3. Crawl
   The dog will respond to the handler’s cue to crawl by getting in the down position and crawling on his/her belly at least 5-ft. The dog will do this trick at least 2 times.
   • In the Novice level, the handler may instruct the dog to “down” in preparation for the crawl.
   • The handler may use a lure.

4. Fetch it & Give
   The handler will throw an object such as a favorite toy or ball for the dog to retrieve. The dog will fetch the object, bring it to the handler, and will release it. (2 times)
   • The dog will fetch the object from at least 10-feet.

5. Find it
   A treat will be hidden under one cup and the dog will be told to “find it.” The dog will touch the cup with its nose or will turn the cup over [at the Intermediate level, this trick will be done with 3 cups]. (2 times)

6. Get your ____.
   When told by the handler, “Get your__” [may be a brush, toy, name of specific toy, etc.], the dog will get the object from at least 5-ft. away and will bring it to the handler. (2 times)
7. Get in (the box)
   When the handler tells the dog, “Get in,” the dog will jump or step into a box. (2 times)
   • The box will be big enough to hold the dog
   • The sides of the box may be trimmed so the box is only several inches high.
   • A box lid may also be used if the lid is several inches tall.
   • All 4 paws will be in the box.

8. Get on (low platform or step, etc. with 4 paws)
   When the handler tells the dog, “Get on,” “Hup,” or whatever the preferred term is, the dog will jump or step onto a low platform. This can be a wide step for the dog to stand on with all 4 paws, an agility pause table, or a trick dog pedestal. (Will do 2 times)
   • Remember that whenever the dog is jumping onto something, the object should be stable.

9. Hand signals (Choose one: sit, down or come)
   The dog will respond to one of the hand signals for sit, down or come. Dog will do this trick (respond to selected hand signal) 2 times. If a hand signal has not already been taught, we suggest using the hand signals for AKC obedience if the handler is interested in obedience training. This trick tests the dog’s ability to respond to a hand signal; lures and verbal cues may not be used for this trick.

10. High five
    In the High five trick, when cued by the handler, the dog raises one arm into the “high five” (chest height) position. This trick can also be called “wave hello,” or “wave goodbye.” At the Novice level, the dog may simply raise the arm and does not have to wave or paw at the air. (2 times)

11. Hold (at least 3-seconds)
    For the Novice Trick Dog “hold”, the dog will hold an object given to it by the handler (who says, “Hold”). (Object will be given to dog to hold 2 times)
    • the object may be a favorite toy or ball. For an obedience dog, the handler may wish to have the dog demonstrate holding a dumbbell.
    • Objects at the Novice level are held at least 3-seconds
    • Other objects could be a basket (handle), a stuffed animal that could be worked into a trick dog routine (“take the cat outside”), a letter, etc.

12. Jump (through a low hoop or over a low bar)
    When instructed to, “Jump!” by the handler, the dog will jump over a low bar (a few inches from the floor) or the dog will jump through a low hula hoop. (2 times)
    • In Novice, a lure may be used to get the dog through the hoop or over the jump.
13. Kennel up (go in crate, stay until released)
   When told, “Kennel up,” “Crate,” or “Get in your crate,” etc., from 3 to 5 ft. away, the
dog will go into the crate and will stay there (quietly and with no resistance) with the
door closed for at least 10-seconds. (2 times)
   • The handler will open the door after 10-seconds and will release the dog.

14. Kiss
   The handler will turn his/her cheek to the dog, say “Kiss,” or “Give kisses,” etc. The dog
will kiss the handler’s cheek. (2 times)

15. Paws up (2 front paws on low footstool or step)
   When told, “Paws up,” by the handler, the dog will step up and place his/her two front
feet onto a step, stepstool, upside down wooden box or other raised surface. (2 times)
   • Stools, pedestals, and other surfaces should be stable so that they don’t slide
when the dog steps up.
   • A practical example of this skill is in therapy settings when the dog needs to
raise its head so a patient in a bed can reach it for petting

16. Push-ups (sit, down; sit, down; sit, down)
   Push-ups are a good exercise for puppies who are learning tricks.
   • In Novice, a lure may be used to guide the dog into a sit. From sit, the dog is
instructed to “down,” then sit again, then down.
   • There should be 2 repetitions of sit and down.

17. Shake hands
   When the handler says, “Shake,” “Paw,” or “Shake hands,” the dog will raise her/his
paw chest high so the handler can ‘shake hands.’ (2 times)
   • Remember that you can reward the dog with food in Novice.

18. Spin in circle
   When told, “Spin” or “Circle,” the dog will spin in a full circle.
   • The dog may circle to the right or left. More advanced trick dogs can learn to
respond to “circle right” and “circle left.”
   • The handler may use a lure in Novice to get the dog to spin.
   • The dog should spin at least 2 times in a circle (does the trick twice).
19. Touch it (hand or target stick)
The touch is the foundation for a lot of trick training. When told, “touch,” the dog will touch the handler’s hand or target stick. (2 times)
- Say, “touch” and present the object to be touched to the right of the dog’s head, then to the left, then in front of the dog (so the dog will demonstrate it can do this in 3 positions).
- For this exercise, we encourage handlers to learn to use a clicker if they haven’t already. In training, click and reward each time-- the instant the dog does the behavior correctly. First click, then treat.
- By the time handlers get to the Trick Dog test, they may or may not have faded some of the clicks.

20. Tunnel (agility or child’s tunnel)
In this Novice trick, the dog will go through a tunnel (2 times).
- The handler may guide the dog into the tunnel at the entrance.

21. Other: Handlers Choice
For the Novice title, the handler may choose to do up to 2 Handler’s Choice tricks. This is to accommodate handlers who have taught tricks not on this list. If the trick is more difficult than a Novice trick, the handler may wish to save this trick for a more advanced title. Tricks may not be repeated from one title to the next. This trick should be demonstrated 2 times.

10. Jump through - handler’s circled arms
    This trick is for small or medium-sized dogs. The handler will hold her/his arms in a circle (to the handler’s side) and will give a cue such as, “Through” or “Hup” to signal the dog to jump through the handler’s arms. (2 times)

   There are two ways to do the sit pretty: 1) the dog will sit up with its paws off the floor or 2) the dog will sit and simply tilt its head to the side. (2 times)

PERFORMER LEVEL

Trick Descriptions

In the Performer level, there are no tricks specified. The handler/dog will perform a total of 10 previously learned or new tricks from the Novice, Intermediate and Advanced titles.

To earn the AKC Trick Dog Performer title, the dog must demonstrate 10 tricks. Of these, there must be at least 2 Intermediate and 2 Advanced Tricks.

For the Performer level, tricks may be done as either 1) 10 unrelated tricks done one after the other or 2) as a part of a routine with a theme/story.

An example of a theme is “Bruno plays sports”. An example of a tricks routine with a story is, “This is Princess. Princess loves to go to school. When she goes to school she 1) takes a nap, 2) gets a book, 3) goes outside and plays ball,” etc.

A helper may be used to read/narrate the story as a way of prompting the tricks for the handler, or the handler may tell the story as the routine proceeds.

A theme or story is not required, however, these can be very entertaining and useful for dogs who are working in schools and therapy settings.
