

My Animal's Cage

For Breeding, Market, and Pet

Complete this two-page profile of your animal's cage. If you have more than one cage, begin by copying these pages as many times as needed. Copies are also available at go.osu.edu/4hrabbitresources.

1. What is the width of the cage or housing facility? _____
2. What is the length of the cage or housing facility? _____
3. What are the dimensions of the feeder? _____
4. What are the dimensions of the waterer? _____
5. How many other animals are in the cage or housing facility with your project animal(s)?
What are they?

6. Is the cage or housing facility at an ideal stocking density? In other words, is the space large enough to allow all animals to turn around and lie down freely without touching any objects or other animals? Explain.

7. Is there enough feeder space for all animals to eat without any competition? Explain.

8. Is your waterer big enough to eliminate competition among all animals in the cage or housing facility? Explain.

Attach photo(s) with your project animal(s) in the cage or housing facility. Your picture(s) should show these items and areas:

- location of feeder and waterer
- open spaces or exercise areas
- laying or bedding area
- animal traffic patterns
- sheltered areas
- protection from predators

Attach photo(s) of cage or housing facility to this page.
