

Ohio 4-H News & Notes

Week of December 3, 2017

3rd Annual Meat Judging Student Clinic

The 3rd Annual Meat Judging Student Clinic will be held Saturday, January 20, 2018, at the Animal Sciences Building on the OSU Columbus Campus. This clinic is for High School Juniors and Senior. Topics include beef, lamb and pork evaluation – carcass classes, wholesale classes, retail classes, retail ID, and notetaking. The cost for the clinic is \$60.00 per person. A flyer with more information as well as the link for registration can be found at <https://ohio4h.org/statewide-programs/animal-sciences/livestock/livestock-calendar-events>.

If you have any questions, please contact Annie Steel at steel.46@osu.edu or call (614) 688-1934.

Generation Rx Request for Proposals Responding to the Opioid Epidemic

Since 2009, the Cardinal Health Foundation has supported prescription drug misuse prevention through our Generation Rx programs. Our work has grown in complexity, scope and reach, and now includes prescriber education, community support and drug take back programs in addition to prevention education.

We are pleased to announce three new Generation Rx requests for proposals, targeting four of the states that have been especially hard hit by the opioid epidemic. We invite you to review these grant opportunities, and apply for one or more to address the needs in your community. (Learn more at CardinalHealth.com/GenerationRx.)

Apply by January 12, 2018.

- Prevention Education for Youth: Grants will be available to organizations in Kentucky, Ohio, Tennessee and West Virginia. We anticipate funding 30-50 programs at \$25,000-\$35,000 each.
- Best Practices in Pain Medication Use: Grants will be available to organizations in Kentucky, Ohio, Tennessee and West Virginia. We anticipate funding 20-30 programs at \$25,000-\$50,000 each.
- Community-Level Response: These grants will be available only to communities in Ohio. We anticipate funding 5 communities at \$75,000-\$100,000 each.
- The Cardinal Health Foundation has engaged content specialists to provide technical assistance to grantees and to create learning communities. We expect to convene grantees within the next 12 months for further learning.
