

ChickQuest Supply List

This list details non-consumable items that are not readily available and are not included in the teacher pack. Check each lesson for the complete list of consumable and non-consumable items.

Lesson 1

- egg incubator (check with your local 4-H Educator)
- 1-3 hygrometers (digital preferred)
- 1-3 thermometers (digital preferred)

Lesson 2

- 10-12 fertilized eggs (Check with your local 4-H professional.)

Lesson 4 (1 per pair of students)

- flexible tape measures (cloth is best) with metric and U.S. units
- spring scales with metric and U.S. units
- beaker/graduated cylinders large enough to hold an egg

Lesson 5 (amounts depend on how many investigations are set up)

- beaker
- magnifying glasses

- digital scale
- pipettes

Lesson 6 (one per learning station)

- set of three-dimensional shapes (golf ball, ping-pong ball, square block, cone-shaped block, pyramid-shaped block) fist-sized ball of clay or play dough

Lesson 11

- 1 candler (Check with your local 4-H professional.)

Lesson 16

- Sample egg products from local grocery: brown eggs, liquid eggs, colored eggs

Lesson 18

- brooder box (Check with your local 4-H professional or build your own. See Teacher's Guide.)

Specific non-consumable items required per classroom are available from many sources. The links below are intended to assist in selecting the correct materials, not to endorse Nasco as the sole supplier. For kit quantities of 10 or more, significant discounts may be available through Nasco's Contract Sales Department. More information is available at enasco.com.

Nasco Product Number	Quantity	Description
