

**TASK  
CARD****Lesson 10 —Experiment #1*****The Spinning Egg***

**Materials:** Hard-boiled egg and raw egg  
(labeled A and B)

Gently spin each egg on a flat surface, and then stop the spinning by tapping the middle of the egg quickly but firmly. Spin and stop at least two times to check for similar results. Record observations in your ChickQuest Logbook on page 30.

**TASK  
CARD****Lesson 10 —Experiment #2*****The Floating Egg***

**Materials at Station:** Hard-boiled egg and raw egg  
(labeled A and B), bowl of tap water, bowl of salt water

Place each egg in the bowl with tap water. Observe. Gently remove eggs and place them in the bowl with salt water. Observe. Record observations in your ChickQuest Logbook on page 30.

**TASK  
CARD****Lesson 10 —Experiment #3*****The Candled Egg***

**Materials at Station:** Hard-boiled egg and raw egg  
(labeled A and B), flashlight

Hold up an egg. Shine the flashlight on it. Hold up the other egg. Shine the flashlight on it. Record observations in your ChickQuest Logbook on page 31.
